

Put down the phone!

Patient information is just a click away!

Imagine the time you will save now that Washington Dental Service is integrated with most practice management systems. You can access real-time benefits and eligibility information for your Washington Dental Service patients directly through your existing practice management software. Many dental offices in Washington are already using eServices. Now you can too!

eServices is here and it's saving thousands of dental offices time and money!

Make your next call to your practice management software vendor and sign up for eServices today.
