## ABOUT DELTA CARE

The DeltaCare plan offers you and your family an affordable choice for quality dental care. Delta Dental/Washington Dental Service has contracted with a select network of dentists (both primary care dentists and specialists) who have agreed to provide a full range of benefits and high-quality care.

## ACCESSING CARE

### How to use your DeltaCare program

When you enroll you will need to choose a Dentist from the list of contracted Deltacare Providers. After you have enrolled, you will receive a membership card that will have the address and telephone number of your DeltaCare dentist. To receive all necessary dental care, simply contact your assigned DeltaCare primary care dentist to make an appointment.

Your DeltaCare dentist is responsible for coordinating all specialty care. Either he/she will perform the specialty treatment, or refer you to a DeltaCare network specialist. In some unique cases, your dentist may refer you to a non-network specialist, but prior authorization is required.

***The DeltaCare program will not cover dental services that are not performed by your assigned DeltaCare office or properly referred to a DeltaCare specialist.***

You may change DeltaCare dentists by contacting the Delta Dental/Washington Dental Service DeltaCare unit and making your request by the 25<sup>th</sup> of the month. You can quickly find a DeltaCare participating dentist in your area by accessing our online directory, at [www.deltadentalins.com](http://www.deltadentalins.com). Our customer service representatives will assist you in the transfer, which will take effect the first day of the following month.
