

Introducing Individual Plans from Washington Dental Service

By enrolling in the new Washington Dental Service individual plan, you can keep your dentist or choose a new one from the state's largest dentist network. Plus, you and your family can continue needed dental care, all while getting the most from high-value dental benefits that fit into your budget.

Questions and Answers about the Washington Dental Service Individual Plans

Am I eligible for a Washington Dental Service individual plan?

Yes, if you are a Washington resident 18 years or older and are not already covered by another dental benefits plan.

Can my family get coverage?

Yes. There are single, two-person and family plans available. Two persons can mean you and a spouse, you and a domestic partner, or you and an eligible dependent.

When will my coverage start?

If you enroll online by the 25th of the month, you will usually be covered starting the first day of the next month, unless you request a future date within 90 days. The first month's premium for you and any dependents must be paid in advance.

Can I get care outside of Washington?

Yes. Choose any licensed dentist and have him or her sign claim forms. Then make sure those claim forms are submitted to Washington Dental Service for payment.

How are payments made?

Monthly automatic withdrawals from your checking account make it simple.

What if I need to cancel my policy?

You may cancel at any time, but you won't be able to re-enroll for 24 months. Refunds will be based on when your cancellation is effective.
