

Delta Dental of Washington

Get Started with your DeltaVision® Benefits

Welcome to your Delta Dental and DeltaVision® benefit plans. Here are some tips for using your DeltaVision® plan.

Visit a VSP® network doctor to maximize your coverage. Your plan’s network is the VSP Choice network. Your VSP eye doctor will ask for your name and DOB or your member ID.

Where to find your member ID. Your ID is the same as the dental ID found on your ID card. You can access your ID card on your Delta Dental MySmile Dashboard, or contact Delta Dental of WA customer service 800.554.1907

Find a VSP network doctor. View your benefits. A few easy steps to get started on the vsp.com member’s site:

- Go to vsp.com
- Click on the Members tab and create an account
- Enter the full member ID
- Enter member information

Need help with your VSP member online account? Contact VSP: 800.877.7195

Important: it takes up to 10 days from your policy effective date for your benefits to be active at VSP. If your eye doctor has any problems locating your plan, please contact Delta Dental customer service 800.554.1907. They will coordinate eligibility with VSP and the provider.

Visit your vision doctor regularly. Your plan covers an eye exam once every 12 months. Regular exams are essential to keeping your vision healthy and preventing problems down the road.

Have a question along the way? Give us a call at 800.554.1907. We’re happy to help.
